

Rain fails to dampen spirits on Highways Golf Day

It takes more than a bit of rain to keep the highways industry off the road. And the same is true of the golf course where teams from across the country were determined to finish all 18 holes despite some fairly challenging weather at this year's Highways Magazine Golf Day in "sunny" July.

The twelve teams at the picturesque Warwickshire Golf and Country Club were determined not to let the rain spoil their day and players posted some impressive scores in the conditions. Highways publisher Neil Levett said: "The rain was pretty hard during the day but it's a testament to the resilience of our industry that everyone just took the conditions in their stride. The course was in great condition and there were some impressive scores out there considering the weather. I'd like to say a big thank-you to our sponsors and all the players who took part. The event continues to go from strength-to-strength and let's hope we are rewarded next year with a bit of sunshine." This year's winners were Tennants with Velocity in second place and TMCA third. New teams taking part this year were Redray Consulting, TWM, Cappagh, A-One+, Safety Vehicle UK and FLI. Redray also sponsored the event alongside Morelock and Route Signs.

Next year's event will be held on Friday 5th July 2013. For more information contact Carole Beckham: carole@aladltd.co.uk
